

MUSIC COMPANY PREPARING ITS NEW HOME

Thomas Weir

John Dorn.

W. H. Alexander.

A. B. Carstensen, J. H. Anson.
Members of the Carstensen & Anson Company.

The Carstensen & Anson company, one of the largest exclusive music houses in Salt Lake, will move in October from its second South street location to its new building on Main street. For the last six months the firm has conducted a salesroom on Third South street. The stock is now being removed from this salesroom to the present location of the firm at 7-17 West Second South street.

The business of the Carstensen & Anson company was begun on June 1, 1902, by A. B. Carstensen and J. H. Anson. In October, 1902, the firm incorporated with John Dorn as president, A. B. Carstensen, vice president; J. H. Anson, secretary; F. C. Dorn, treasurer, and George H. Dorn and P. J. Anson, directors.

In January, 1904, this firm purchased the business of the original Daynes Music company, the largest and oldest music house in the state. Their store was burned in October, 1905, but was immediately rebuilt and business was resumed in December of the same year. In May, 1906, the firm left its old location in order that a new building might be erected on this site and opened their new store at 7-17 West Second South street. Business was not great this summer that

an additional salesroom on Third South street was operated for six months. The new home of the firm at its old location at 7-17 South Main street is nearing completion and will be ready for occupancy next month.

The company was recently reorganized. Thomas Weir and W. H. Alexander, both of whom are prominent Salt Lake residents, becoming members of the company. Mr. Weir has lived in Salt Lake for the last fifteen years, and has been prominently engaged in mining interests. Mr. Alexander was for a long time engaged in the music business. For eight years he was superintendent of agencies of a large organ manufacturing company. He will be connected with the new management of the company's business.

The success of the company is attributed by the members of the firm to the fact that they have always handled a superior line of pianos, piano-players, talking machines and other musical supplies. They have handled the same line for years and during that time there was no change in quality or in the personnel of the members of the firm. Some of the new members have been added, but the old members are still remaining.

The company has recently made arrangements for the appearance of Madame Teresa Carreno, the world's greatest pianist, who will play an Everett

piano in a recital in one of the leading Salt Lake theaters in January of 1909. The engagement last year of Paderewski, who played a Weber piano, will be remembered with pleasure.

Among the pianos comprising the line represented by the Carstensen & Anson company are the Weber, Everett, Hardman, Krakauer, Fischer and Ludwig. In addition to these they sell the famous pianola pianos, such as the Weber, Steck, Whitehead and Stuyvesant. The first shipment of the Steinway pianola pianos is expected soon. Mr. Carstensen makes the announcement that a number of orders for these instruments have already been received.

Their piano and piano player agencies extend into Idaho, Nevada and Wyoming, and their trade reaches well into the northwest.

The phenomenal growth of the company has necessitated an increase in the capitalization, so that at present the company is well financed to take care of the trade of its growing territory.

The present officers of the company are: John Dorn, president; George B. Anson, vice president; A. B. Carstensen, treasurer and manager; J. H. Anson, secretary and assistant manager; and W. H. Alexander, sales manager. The directorate is composed of the officers of the company and Thomas Weir and Fred C. Dorn.

pose of offering suggestions to the senate committee on reclamation and irrigation projects with a view to making some modifications in the reclamation law. The suggestions will be made by the Water Users' association which is composed of representatives of the various projects.

"We feel," said Mr. Newman, "that by meeting in this way and having our opinions condensed, our suggestions will carry more weight with the senate committee than to send in a long list of complaints. The meeting this afternoon is but a preliminary one and the main session will be held tomorrow afternoon at 2 o'clock at the Wilson hotel."

The feature of our suggestions will be to get the work of reclamation done cheaper, if possible. The government irrigation projects are too costly, and while all the irrigators are in favor of the projects we feel there is too much money wasted in red tape.

"We are anxious to have the law changed so that the settler will have at least two years in which to pay for the water, after it is turned on the land, and we would like to see the secretary of the interior have more leeway in handling the projects. I met members of the committee in Pocatello and I understand the committee is in Ogden today. I do not think it is coming to Salt Lake, but as I explained, the purpose of our meetings this after-

noon and tomorrow is to get opinions as to the proposed changes in the law and submit the same to the committee."

H. G. Stewart and D. D. Davis, representing the North Platte valley project of Nebraska; N. R. Merrill and J. C. Stevenson, representing the Klamath project of south Oregon; and G. M. Thomas, representing the Williston project of North Dakota, are also at the meeting. Others representing irrigation projects are expected in this evening in time for the preliminary meeting.

Hamlin Paints Signs of the Better Kind. Both phones.

WARNING.

Do not be persuaded into taking anything but Foley's Honey and Tar for chronic coughs, bronchitis, hay fever, asthma, and lung trouble, as it stops the cough and heals the lungs. P. J. Hill Drug Co., "The Never Substitutors."

LEGAL BLANKS.

Of every character and description arranged from the best legal forms and brought strictly up to date. A full supply always on hand at the Deseret News Book Store. DESERET NEWS BOOK STORE.

When he knows only the best will satisfy you, the dealer will send a can of

Ghirardelli's
GROUND CHOCOLATE

because it is perfect and goes farthest—less than a cent a cup.

Cocoa
Fact
No. 24

Until recent times cocoa was prepared by manual labor, the beans being pounded in iron mortars. Even now in many parts of the tropics the same primitive methods are followed. In the large modern plants, machinery now does all the work of sorting, cleaning, roasting and grinding the cocoa beans.

Don't ask merely for chocolate—ask for Ghirardelli's.

FRENCH CHEF'S
TRAGIC DEATH

George Klotz, Familiar Character
Around Salt Lake Saloons,
Dies at Hospital Door.

TAKEN FROM DRUNK HOUSE.

Believed to be Intoxicated He was Arrested, to be Found Later
Dying in Cell.

George Klotz, a Frenchman of about 46 years of age and for the past 20 years a familiar character about Salt Lake, died yesterday afternoon almost while he was being carried in the entrance of St. Mark's hospital, where he had been taken from the police emergency hospital.

Klotz was found lying at the corner of First South and Main streets late Sunday night, and was taken to the police station as a drunk and placed in the "drunk-house." Towards early morning the night jailer's attention was attracted by another prisoner pounding on the door and calling for help, and when Jailer Gulbransen responded he was told that Klotz was in a serious condition. The sick man was removed to a cot in the emergency hospital and when Dr. P. B. Steele arrived about 7 o'clock in response to a call, he held out little hope for the man's life. Shortly after 8 o'clock Dr. Steele accompanied by Dr. H. B. Peits visited Klotz again and found his condition slightly improved, and on a third visit shortly after 11 o'clock Dr. Steele ordered the man Klotz, however, succumbed just as he was being carried to St. Mark's hospital.

The death of Klotz is attributed to the effects of excessive alcoholism and other excesses. He had been subject to epileptic fits and it was thought that when he was taken by the officers that he had fallen in an epileptic seizure and that his death was due to lack of proper treatment.

DOCTOR'S STATEMENT.
Dr. Steele stated in a "News" report of this morning:
"When I visited Klotz he was not in an epileptic condition, and my diagnosis was that he was suffering from uraemia. There would be no connection between his epileptic seizures, if he had one, and his condition yesterday which resulted in his death."
The criticism that Klotz's death was due to the lack of treatment or care on the part of the police is refuted by Chief of Police Barlow and Lieut. Shannon.
Chief Barlow this morning said:
"I hardly think our officers should be accused of brutal treatment towards

Klotz. Klotz has been a heavy and an excessive drinker and I am informed that for 15 years past he has been repeatedly arrested for drunkenness and has had to be cared for by the police on many more occasions. The officers thought from his condition Sunday night that he was on another spree, and immediately it was found that he was sick he was given every attention that we could give."

KLOTZ RELATIVES.
The statement published in the morning papers that Klotz was married to a daughter of M. W. Crookston, sheriff of Cache county, and was the father of two children, has been found to be untrue. Klotz, who has lived in Salt Lake for 20 years, and of later years has made his home in the saloons of Commercial street, is without relatives in America. He is understood to have two sisters and three brothers in Switzerland, and the fact that one brother has from time to time sent small remittances of money leads to the belief that they are fairly well to do.

C. Shagogue, a bartender in Bonanza's saloon and who has been the intimate friend of Klotz for over 15 years, said today:
"Klotz was an unmarried man and had no relatives in this country. He has brothers and sisters in Switzerland and one of them occasionally sent him money, but just enough to exist on. He was an exceedingly heavy drinker and was subject to epileptic fits. He has not been in good health for the past two or three years. Years ago he was one of the best cooks in Salt Lake, and worked at the Knottford and Knottford hotels, but lately he has been doing porter work around the saloons."

The body will be held at O'Donnell's mortuary until the relatives in Switzerland can be communicated with.

Dr. Abernethy, the great English physician, said: "Watch your kidneys. When they are affected, life is in danger." Foley's Kidney Remedy makes healthy kidneys, corrects urinary irregularities, and tones up the whole system. P. J. Hill Drug Co., "The Never Substitutors."

WARNING TO INVESTORS.
Parties wishing to buy stock in the Miskin Springwheel Company are warned not to do business with unauthorized parties, as their money goes into the pockets of impostors instead of going into the business that they think they are investing in it.

ROSE LECTURE
TONIGHT

At eight o'clock tonight Hon. David S. Rose, Mayor of Milwaukee, will lecture to a large audience in the Salt Lake Theater.

The Subject of His Talk Is

"TRUE TEMPERANCE"

Mayor Rose comes from a very recent study of this question. His plea is for real temperance. He is one of the conservative, level-headed, business men who look upon all questions without prejudice. He is also a most engaging and eloquent speaker.

\$575 Hardman Piano, almost perfect condition, marked to go at \$243
\$450 High-Grade Piano, name withheld for protection, at \$262
\$325 Regular Stock Piano has become shopworn, a snap at \$183

The Reason for the Price Cutting

In consolidating the two old established music houses of Clayton-Daynes Music Co. and Beesley Music Co., and forming a new company to be known as the "CONSOLIDATED MUSIC CO.", it becomes necessary to eliminate certain agencies from the lines the two houses have been carrying in the past. The pianos now on hand must and will be disposed of, even though it may entail a loss to the new company. While the new store of the new company at 109-11-13 Main street, in this city, will be the largest music and piano house in the western states, there will not be floor space sufficient to accommodate all the pianos now in its possession in its two stores. The prices made will move the stocks quickly.

Not a Single Price Has Been Advanced

The "regular" prices quoted in the list of bargains above are all genuine, the prices at which the instruments have usually sold. The prices made on the "Used Pianos" are positively ridiculous, but we mean to get rid of every one in stock, and have no chance of their being carried over.
